**Play-Dough Recipe**

3 cups flour  
1/3 cup salt  
2 tbsp oil (veg)  
1 cup water  
* 7 drops food coloring.

Mix dry ingredients with oil.

Add food coloring to water and mix together.

Add water to flour/salt/oil mixture slowly ~ about 1/4 cup at a time and mix together with a spoon. Once you've added all the water, knead the dough with your hands.

*Alternatively – try using vegetable or fruit juice instead of water to get colored play-doh, e.g., grape juice, vegetable juice (will turn it orange) if you don’t want to use food coloring.
