Resources for Using Google Earth or GIS in your classroom –

1. New lessons have been developed for Hawai’i classrooms by the Hawaii Geographic Information Coordinating Council (HIGICC) … contact them or check their website to get the curriculum! They can provide speakers or help when trying to introduce something to your classroom. Go to:  http://higicc.camp8.org/

2. The Geotech program can help you integrate Geo into your classroom. Check here for great resources! Go to:  http://www.womenintech.com/geotech.html

3. http://www.stemhawaii.com/ has great links and information on workshops and grants that you can take advantage of.

-   Lists a lot of curriculum for Hawai‘i teachers.
