Left Brain/Right Brain Quiz

Directions: On a blank sheet of lined paper, write down the number of every description or characteristic below that applies to you. There is no certain number of characteristics you must choose. After you are done, view the key. Next to every number on your paper, write whether it was an L or an R. Count up the number of Ls and Rs. Whichever number is higher represents your dominance. If the numbers are close, that means you use both sides of your brain equally.
