Dementia Capable Care of Adults with ID and Dementia

This workshop is made possible by a grant from the Administration for Community Living given to the University of Hawaii Center on Aging – the Hawaii Alzheimer’s Disease Initiative and the Hawaii Department of Health – Developmental Disabilities Division.

2 Day Basic Workshop
Monday & Tuesday, November 14 & 15, 2016 | $200

3 Day NTG Affiliated Train-the-Trainer Workshop*
November 14, 15 & 16, 2016 | $400
8:30 am – 4:30 pm
Queen’s Conference Center
Queen’s Medical Center
1301 Punchbowl Street
Honolulu, Hawaii 96813

As people with ID live longer age-related problems, such as dementia, are increasing. People with Down syndrome in particular have an increased risk of Alzheimer’s. People with ID and dementia differ from the general population with dementia in a number of ways and the presentation of dementia in someone with ID may be subtle and go unrecognized.

The National Task Group (NTG) recognizes the need for more information related to age associated cognitive decline and neuropathologies (such as dementia), particularly how they apply to people with an intellectual disability and impact their families, friends, advocates and caregivers.

This specialized training curriculum was developed in acknowledgment of the emerging service need for professionals who are capable and comfortable with screening, assessing, and managing the interventions and supports related to the nuances of dementia and intellectual disabilities. Caring for individuals with ID and dementia requires a significant shift in skill set and philosophy of care from the care philosophies inherent to lifelong intellectual disabilities.

Target Audience: The workshop is appropriate for any staff with direct or ancillary care responsibilities of older adults with intellectual and developmental disabilities in both disability-related, health care, and aging-related agencies.

* Three Day NTG Affiliated Regional Trainer Workshop Description: This workshop is for those with prior training experience wishing to become an "NTG Affiliated Trainer." The first two days of the workshop cover the topics outlined above in the 2 Day Basic Workshop. A third day is added and is devoted to understanding and delivering the full NTG Dementia Capable Care Curriculum. NTG Affiliated Trainers are authorized to use NTG branded and copyrighted training materials to train within their own organization or to conduct training for outside agencies and organizations. Affiliated trainers have access to greatly expanded topic modules, trainer manual, NTG continuing education webinars, and are mentored by NTG Master Trainers.
UH Center on Aging’s Hawaii Alzheimer's Disease Initiative and Hawaii Department of Health, Developmental Disabilities Division is pleased to present the NTG’s new national model workshop:

Dementia Capable Care of Adults with Intellectual Disabilities & Dementia

SAVE THE DATE!
Seating will be limited.

2-Day Basic Workshop: November 14 & 15, 2016, $200
3-day with Train the Trainer Course*: November 16, $400
Queen’s Conference Center, Honolulu, HI 96813
Registration website: http://aadmd.org/ntg/schedule

12 Social Work and Nurse CEs will be available, pending approval

Who Should Attend?
The workshop is appropriate for any staff with direct or ancillary care responsibilities of older adults with intellectual and developmental disabilities in both disability-related, health care, and aging-related agencies. This training is also appropriate for family caregivers providing care to an adult with ID and dementia.
*What is the Train-the-Trainer Option?*

A Train-the-Trainer option is available as an additional third day for those wishing to become recognized as NTG Affiliated Regional Trainers. The NTG is developing a core group of Affiliated Regional Trainers nationally. Affiliated Regional Trainers are those individuals who have completed the two-day Dementia Capable Care of Adults with ID and Dementia training as well as the third day “Train-the-Trainer” workshop and successfully complete an online test of knowledge. Regional trainers are authorized to use the copyrighted NTG Dementia Capable Care of Adults with ID and Dementia curriculum and related materials to conduct trainings for their organization or for outside agencies and organizations on a fee for service basis. As a recognized NTG affiliated Regional Trainer you will receive NTG branded and copyrighted Power Point slides covering the topics included in the two-day training as well as additional expanded topic modules for topics not covered in the two-day workshop, a Trainer Manual, class handouts and exercises, and extensive additional resources. In addition, Regional Trainers will be assigned an NTG Master Trainer who will mentor them in the use of the curriculum. Quarterly webinars are held to keep Regional Trainers up-to-date on advances in knowledge relating to ID and dementia, new resources, and as a means of sharing ideas and success stories.

*Training will be conducted by NTG Lead Trainers:*
*Kathleen Bishop, PhD. and Kathryn Pears, MPPM*
