Present:
A Capacity Building Institute on
INCLUSIVE POSTSECONDARY COLLEGE EDUCATION FOR STUDENTS
WITH INTELLECTUAL DISABILITIES

Participants will learn of the various ways to provide support to students with intellectual disabilities transitioning to postsecondary education settings. Participants will also gain knowledge and learn new strategies for applying the principles of Universal Course Design to support all learners.

Come and join in on an interesting and productive session including presentations from project staff from several national inclusive postsecondary college programs including Think College New York, The Dual Enrollment with Individualized Supports Project in Hawai‘i, and the Think College Coordinating Center. Also learn from national expert Lori Cooney from The Institute for Community Inclusion at UMass Boston about how mobile technology and Universal Design for Learning (UDL) are being applied in support of inclusive postsecondary education efforts.

Interested participants are welcomed from all areas of academic, professional, and personal interest or support, including college or university disability support personnel, transition specialists, education administrators, rehabilitation counselors, school counselors, special education transition coordinators, regional center administrators and counselors, parents, persons with disabilities and their advocates.

Think College is a project of the Institute for Community Inclusion at the University of Massachusetts Boston, and is funded by grants from the Administration on Developmental Disabilities, National Institute on Disability and Rehabilitation Research, and the Office of Postsecondary Education, Department of Education.

This event was made possible by support from the University of Hawai‘i Diversity and Equity Initiative, and University of Hawai‘i Student Activity and Program Fee Board.

The Center on Disability Studies is an interdisciplinary research unit affiliated with the University of Hawai‘i at Mānoa, College of Education. The Dual Enrollment with Individualized Supports Project is funded by the Office of Postsecondary Education, of the United States Department of Education.
